Draft - FL EPA MOA 7 - caveated.docx

<!--[endif]-->

Jeaneanne, attached are two documents. One is the full MOA we have been working on with FDEP. The file name has version 7. FDEP has this and it does not include the ESA language. The second is the ESA language which as you know we did not give them, but let them read it and then took it back at their request.

Phil

There is nothing new to report, but since I know you all will see Noah and possibly Truitt soon, wanted to remind you that we still have not heard back from FDEP on the MOA language as it relates to ESA and assumption. As I noted earlier, since John was not available during our face to face, Megan Seward has discussed the concept with John and he understands our position but needs to talk to Noah. Not sure he agrees or disagrees, but he will explain to Noah.

I am guessing, if there is an opportunity before or after the Restoration Strategies meeting, or before or after the state directors meeting, this will likely come up.

If I hear anything from Megan, I will pass it on.
